(I) CHENGDU TIANHE SINRUI PRECIOUS METALS CO., LTD.* (成都天和鑫睿貴金屬有限公司)

Reference is made to the announcement of the Company dated 29 January 2026, the Board is pleased to announce that Beijing 1520 Technology Co., Ltd.* (北京壹伍貳零科技有限公司) ("**Beijing 1520**"), a wholly-owned subsidiary of the Company, jointly established a joint venture, namely Chengdu Tianhe Sinrui Precious Metals Co., Ltd.* (成都天和鑫睿貴金屬有限公司) (the "Joint Venture" or "**Chengdu Gold Company**") in the People's Republic of China (the "**PRC**") with Beijing Xiuman Technology Co., Ltd.* (北京秀曼科技有限公司) ("**Beijing Xiuman Technology**"). The Joint Venture has officially commenced operations, and all aspects of its work are progressing smoothly. The Joint Venture has successfully obtained trading qualifications from the Shanghai Gold Exchange, marking a significant step forward for the Group in combining precious metals with sports industry IP.

Currently, the Company is actively applying for the Shanghai Gold Exchange International Membership. If this application is successfully completed, it will help the Group connect both the international and domestic markets, leveraging its advantages in the sports industry and IP empowerment to build a more complete business loop. The Board believes that the establishment of the Joint Venture and the obtaining of its qualification will provide a solid foundation for the Group's business development and bring strategic business support.

Sports IP Gold Souvenir Business Plan

Based on the Group's deep accumulation in the field of sports IP, the Group plans to further deepen the integration of IP and physical products in 2026.

The Group will deeply integrate its existing internationally renowned sports IPs such as La Liga and Manchester United, as well as potential cooperative sports IP resources under development, to launch a series of sports IP gold souvenir to the market. This series of products will combine the value preservation attributes of precious metals with the collectible value of sports IPs, utilizing the Group's advantages in sports IPs to explore a linkage model between digital assets and physical gold.

The Board anticipates that during the 2026 FIFA World Cup in the USA, Canada, and Mexico, and beyond, this series of sports IP gold memorabilia is expected to generate substantial sales revenue for the Group due to its unique cultural value and scarcity, further enriching the Group's revenue structure.

The Group will continue to focus on its core strategy of “Technology × IP × Scenarios”, actively promoting the implementation and development of its various businesses to create long-term value for shareholders.
