VOLUNTARY ANNOUNCEMENT **RELATING TO** **(I) MEMORANDUM OF COOPERATION FOR SAUDI SMART** **MANUFACTURING PROJECT; AND** **(II) COOPERATION FRAMEWORK AGREEMENT WITH IFLYTEK**

This announcement is made by the board (the “**Board**”) of directors (the “**Directors**”) of Virtual Mind Holding Company Limited (the “**Company**”, together with its subsidiaries, the “**Group**”) on a voluntary basis.

The Board is pleased to announce that on 26 September 2025, the Company entered into a memorandum of cooperation (the “**MOC**”) with The Ministry of Industry and Mineral Resources in the Kingdom of Saudi Arabia (“**Saudi Arabia**”) (“**Saudi Ministry of Industry and Minerals**”), pursuant to which the parties reached in-depth cooperation in the field of intelligent upgrading of Saudi Arabia’s industry, to formulate training and publicity programs for industrial digital transformation, propose solutions for industrial challenges in Saudi Arabia related to advanced technologies and industrial innovation, enhance cooperation in industrial production efficiency, product quality and competitiveness, and infrastructure within industrial cities and improve its efficiency, develop industrial supply chains, attract industrial investments and relevant technologies, enhance industrial integration, as well as jointly built a global smart manufacturing super complex to assist Chinese robotics companies in establishing in Saudi Arabia (the “**Saudi Smart Manufacturing Project**”).

The Saudi Ministry of Industry and Minerals is the entity responsible for regulating Saudi Arabia’s industrial and mining sectors with headquartered in the capital, Riyadh. Its responsibilities include issuing rules and regulations governing public and private sector operations, encouraging investment in the sector, and exploring and developing Saudi Arabia’s mineral resources.

In order to facilitate cooperation with the Saudi Ministry of Industry and Minerals, provide support to the Saudi Ministry of Industry and Minerals, and focus on the construction of the robotics industry ecosystem and the empowerment of smart manufacturing, to help Saudi Arabia cultivate local industrial capabilities and build a regional technology and manufacturing highland, the Company entered into a cooperation framework agreement on 26 September 2025 with iFLYTEK Co., Ltd. (“iFlytek”) (the “**Cooperation Framework Agreement**”).

To the best of the Directors’ knowledge, information and belief, having made all reasonable enquiries, as at the date of this announcement, the Saudi Ministry of Industry and Minerals, iFlytek and its ultimate beneficial owners (if applicable) are independent of and not connected with the Company and its connected persons (as defined in the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “**Listing Rules** ”)).

Cooperation Framework Agreement

Pursuant to the Cooperation Framework Agreement , the Company and iFlytek intend to provide AI + robotics industry ecosystem construction for Saudi Smart Manufacturing Project, including jointly construction of a smart robot training ground and pilot center, the establishment of an artificial intelligence industry platform; jointly exploration of application scenarios for robotics super brain technology; the construction of AI + smart industrial application scenarios; the empowerment of the ecological industry and the exploration of the application of AI + industrial office products.

iFlytek is a well-known listed company in the Asia-Pacific region specializing in intelligent voice and artificial intelligence. Since its founding, it has been engaged in core technology research in intelligent voice, natural language understanding, and computer vision, and owns one of the first national open innovation platform for next-generation artificial intelligence. It actively promotes the implementation of artificial intelligence products and industry applications, striving to enable machines to “listen, speak, understand, and think, using artificial intelligence to build a better world”.

Information on Saudi Smart Manufacturing Project

Saudi Ministry of Industry and Minerals aims to cultivate advanced manufacturing and innovation in order to raise industrial knowledge and the Saudi Arabia’s ability to compete globally to enhance its economic complexity, elevate the current state of supply chains, increase productivity, localize new advanced manufacturing sectors, grow manufacturing exports, introduce attractive high-skilled jobs, and create the opportunity to leapfrog in relevant global manufacturing indices.

Reasons for and benefits of entering into the MOC and Cooperation Framework Agreement

The Group has been actively seeking to expand its existing business and possesses extensive experience operating AI+Web3 brand promotion platforms. The cooperation within the MOC and Cooperation Framework Agreement effectively integrates AI technical resources and its own Web3 technological advantages, helping to expand its business areas and enhance the diversity and innovation of its brand promotion services.

The cooperation within the MOC and Cooperation Framework Agreement is an important milestone for the Company in the Web3 field, it is also an expansion from consumer-grade IP to industrial-grade IP. It aims to expand the business scope and enhance the overall competitiveness of the Company through innovative business models, which is expected to bring new business growth points to the Company and have a positive impact on the future development of the Company.

In light of the above, the Board considers that the MOC and Cooperation Framework Agreement are in line with the Company's development strategy, and are in the interests of the Company and its shareholders as a whole.

GENERAL

The MOC and Cooperation Framework Agreement represent preliminary mutual understanding of the parties. Save for the provisions as to confidentiality, the MOC and Cooperation Framework Agreement are non-legally binding agreements and do not create any legal liability to any of the parties in any respect. The corporation within the MOC and Cooperation Framework Agreement, if materializes, may constitute notifiable transaction(s) of the Company under the Listing Rules. If the parties enter into a formal agreement, or if there are any material developments with respect to the potential cooperation, the Company will make further announcement(s) in accordance with the Listing Rules as and when appropriate.

Shareholders of the Company and/or potential investors should note that the cooperation within the MOC and Cooperation Framework Agreement may or may not materialise as no formal binding documentation has been executed between the parties and negotiations are still in progress. Shareholders of the Company and/or potential investors are reminded to exercise caution when dealing in the securities of the Company.

By order of the Board
